Is Elias kifle a friend or a foe to Kinijit?

There is no question about Elias Kifle and his ER as being controversial in the Diaspora politics. Most of the Ethiopian medias in Diaspora have been instrumental in-terms of providing up-to-date information and mobilizing the general public. Again most of the Medias show responsibility in their reporting and are consistent with the Ethiopians Physiological make up that we know very well. However, some of the Medias such as Aigaformu, Benspage and ER are doing more of the activists' job rather than reporting the news. Aigaformu and Benspage are very clear about their objections and agendas, and we know them very well not to trust them. What we don't know clearly is Elias Kfile's agenda. In most cases Elias Kifle try to appear as a friend of Kinijit, but his record proves something else.

We all know that there is no media in any form or shape that is as vicious as ER in-terms of attacking individuals in and around Kinijit. Even though Elias has every right to express his disagreement with the any Kinijit member, his spiteful personal attacks make it look like he is in a campaign of eliminating individuals from kinijit arena. Debate, dialog and expressing disagreement in a civil manner would lead us to a clear and better vision. And obviously, there is nothing wrong with that. However, individual attacks only breaks the bridges that we need to connect to each other and reconcile. Elias trying to tell us that he is attacking certain individuals just because he cares so much about Kinijit, but his pattern over the years shows that he is more interested in Kinijit's instability more than anything else. The fact that Dr. Brahanue Nega, Ato Brhane Mewa, and Dr. Seyeme Selomon were on Elias Kifle's first personality assassination list confirms that Elias Kifle is neither interested nor support any group in Kinijit. His objectives seems that if it is possible to destroy Kinijit, if that doesn't work out influence the Kinijit leaders to a certain political agenda that he believes in.

On one interview that Elias Kifle had with Addis dimts's Abebe Belew he admitted the reality that he is more of an activist than a journalist. Elias has every right to be a political activist, but the general public also has every right to know what Elias's objections are since he tries to involve in politics and influence the public thinking. If we know for what Elias Kifle stands for, we would know from what prospective he looks things. Then, it is up to us to agree with him and support his cause or not. However, we should not allow him to appear as if he cares about Kinijit and let him weakening the popular struggle that Kinijit and the majority Ethiopians stand for.

For a very long time I suspect that Elias Kifle is working with Shabia. The articles that have been posting on his web site lately such as "The defect of Woyanne means victory for Ethiopia", "Soldiers defect to Asmara", and "Meles Zenawi's Somalia debacle" take my suspicion to the next level. Pretty much all the Ethiopian people know what Shabia is up to. We all know that Shabia and Woyanne would use anything to destroy each other. There is no surprise that if Shabia would want to use kinijit just to get ride of Woyanne, but it is our job to protect our Kinijit from both Shabia and Woyanne. Kinijit is the majority of Ethiopians aspiration to see democratic and united Ethiopia. That is why Kinijit is called Sprite. Kinijit is a very popular political movement in Ethiopia with genuine and inclusive visions that serves all Ethiopians regardless ethnicity, gender and economical status. Neither Shabia nor Woyanne are happy about Kinijit's vision for Ethiopia. Actually, they fought together vigorously against the hope and vision that Kinijit stand for. We should not let either of them sneaking up on us once again.

To conclude, I would like to acknowledge once again the fact that Elias Kifle has every right to support any political ideology that he chooses to, but it is also the rest of us right to know better and not to be confused by double agents. I also would like to ask all the Kinijit web sites and other Medias to distance themselves

from Elias Kifle and his ER. Kinijit has its own problems to deal with and come out to be even stronger with out bringing additional turmoil to itself. I also would like to ask all concern scholars to comment on how the Diaspora media is doing in terms of providing balanced information to the general public. Even if we believe in free expression and free media, it doesn't mean that we sell ourselves for some cheap shoots out there. Our inputs and comments help the responsible media to know what the general public thinks of them and help them to grow. I also would like to ask Elias Kifle to state clearly what he stands for and be consistent and truthful the cause that he believes in whatever that might be. After all someone that is not in liberty to express his real feelings can't be trusted to liberate others.

See a trend of division in websites and bloggers too, let's start with Ethiopian review **Elias Kifle** I don't want to spent too much time for this guy, the guy is sick I concluded his abnormality when he start calling eng. Hailu Shawel names. Remember when he was calling everybody name siding with Lidetu during the election? He is a flip flopper thus a target for hire to spin. The man has no principle, no stand and no human dignity at all. You can buy this kind of character any time thus the cable guy is sold. Even today he is telling us people in masses from bay area are waiting in

assassination of those who strive to bring the down fall of EPDRF, while glorifying the likes of Lidetu. The Editor of ER, Ato Elias Kifle pretending as pro-democracy has been noted to infiltrate Anti-EPRDF camps and creating chaos. This pretence goes back as early as to the first years of AAPOO Struggle (1994?). Age has not mellowed him nor made him any wiser. Unfortunately it has emboldened and turned him into a reckless agent posting on his website UNVERIFIED and baseless defamatory information..... Kifle writes horribly well about people like the defamed Lidetu Ayalew to fulfill his duty; when he or his masters are challenged, he bites patriotic and innocent people like a mad dog!..... We believe the victims shall use all the possible legal means to stop the spread of lies, character assassination and defamation made against them so that Elias will learn the hard way and bring an end to such slanderous acts.

With respect,
